

Catch-up Funding Impact Statement 2017-18 &

Planned Strategies for 2018-19

Catch-up Premium is additional funding provided by the government to enhance the progress of pupils who start at secondary school below the expected level of performance in Year 7.

In the academic year 2017-18, Wolstanton High School received £ 5,418 of catch-up funding.

22 pupils were eligible for catch-up funding in 2017-18

The funding was allocated as follows:

Mathematics – additional staffing to provide small group tuition £1,834 Additional resources including online and digital resources £600

English – additional staffing to provide small group tuition and administered one to one via extraction from English lessons £1,834. Licencing for Lexia £1,150, and Literacy Packs

Progress is measured by five data captures during the course of the year and by on-going in class assessment conducted by teachers. For the Year 2017 – 2018 pupils started KS3 with standardised test scores calculated from their KS2 tests. Pupil raw data is converted into our own pupil tracking system. Pupils can therefore, be measured as either being 'on', above' or 'below' their academic targets set for the end of Year 7.

Maths:

60% of targeted pupils starting Year 7 in 2017 below the expected standard in Maths made expected progress at the end of Year 7.

A further 40 % of pupils made progress above their end of Year 7 target in Maths from the targeted group. This relates to 100% of pupils having benefitted from the Catch-Up programme.

English:

All targeted pupils who started Year 7 below the expected standard in English made progress in line with their end of Year 7 target in English. A further 60% of pupils made progress above their end of Year 7 target in having benefitted from the Catch-Up programme.

Plans for the Academic Year 2018-19

In the academic year 2018-19, our expected amount of catch-up funding is £5,000

23 pupils have been identified as eligible for Catch-up funding in Maths

20 pupils have been identified as eligible for Catch-up funding in English

The funding will be spent as follows:
